At the top right, there is a "Date/Time: 06/09/2021" label and a "Select Date:" input field. The main area is a large grid of time slots from 5:00am to 12:00am, each represented by a small rectangular box.

Add a Card

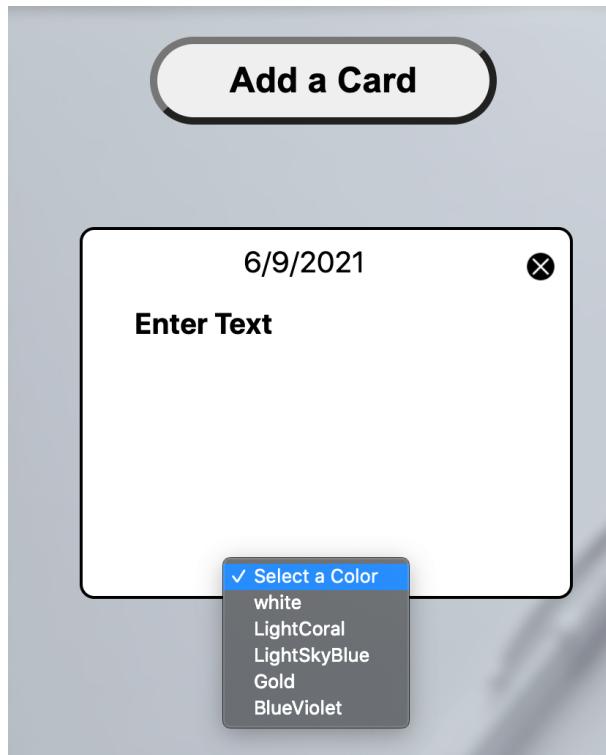

6/9/2021

Enter Text

(Select a Color ▾)

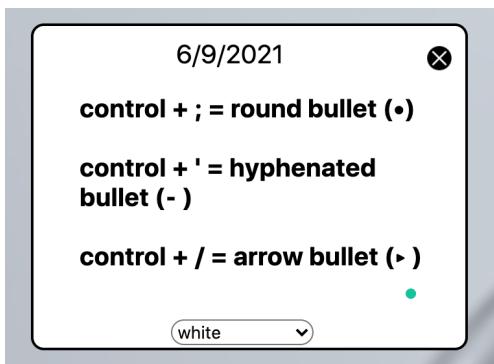

Next is our “Cards” part, you can either type the bullet note or some texts in the text box.

We also provide five colors to choose from, we are thinking that each color may represent the mood you have on that day. So you can choose the color that corresponds to the mood you will have that day. And the date show at the top will be today's date, so you won't mess up what date it is.

We have our shortcuts for adding the bullet symbols, there are three in total. We are thinking that this may be easier for you to enter some keynotes. And if you finish the thing on the card, you can also delete the card by clicking the "x" button in the top right corner.
